About Serious Insights

Serious Insights is a strategic and advisory consultancy that leverages scenario planning to guide organizations in the development strategies that differentiate the organization and better positions it to navigate the future. Serious Insights also provides thought leadership marketing insight and guidance, along with presentations, workshops and professional development opportunities that help leaders and managers practice foresight and develop agile thinking.

Serious Insights is lead by futurist, strategist and author Daniel W. Rasmus. Rasmus served as the Director of Business Insights at Microsoft where he led thought leadership and business experience design for Microsoft Office. Prior to joining Microsoft Rasmus was a Forrester Vice President where he guided the knowledge management and collaboration practice and acted as the company's Chief Knowledge Officer. Rasmus has held leadership and technical positions at a wide range of companies, including Hughes Aircraft, Western Digital, ITT Canon and Dataproducts.
